HATS OFF.

Were you at the skating party Friday evening? Wasn't it the best yet? The consensus of opinion apparently is quite decidedly affirmative with reference to this latter question. Such a verdict implies considerable, for the Y. M. C. A. skating parties have invariably been a huge success. However, we can in all confidence say that in the above mentioned event, the first of the series scheduled for this winter, the promoters have established a precedent which will be difficult to surpass.

It is such outstanding evidences of service as that of Friday evening which arouse us to a realization of all that the Y. M. C. A. means to us. Such occasions cannot fail to suggest the tremendous void which would result were the Association taken from our midst. And yet examples of its work are in daily evidence, though possibly they do not involve the same scope or publicity as skating parties do. In the busy routine of study and pleasure few of us ever stop to reflect upon the essentiality of our Y. M. C. A. to student life at McGill. Quite thoughtlessly, yet none the less certainly, we fail to observe the untiring effort on the part of some few which are so necessary to the maintenance of Strathcona Hall and all that pertains to it.

However such a success as this recent one surely will not merely be remembered as a few hours of pleasure. May it rather remain in our memories as one of the many successful efforts on the part of the McGill Y. M. C. A. to make the social side of college life what it should be.

The Association is by no means exempt from the ravages of besetting difficulties. There are many ups and downs, many problems to be solved, of which only those who bear the brunt of the responsibility are aware. The social and religious aims of the institution are such as make heavy demands for labour and self-sacrifice from those who have them most at heart.

There is too often a regrettable tendency to accept the benefits and privileges, placed at our disposal, unquestioningly and as matter of fact. We quite thoughtlessly neglect to trace their origin to the efforts of others, and in so doing deprive them of that expression of appreciation which they so richly deserve. And this omission on our part is none the less to be deplored by reason of being purely unintentional. Enthusiastic acceptance may in some cases be significant of appreciation, still such is by no means a worthy recognition of the self-sacrifice and labour of others. A word of encouragement or appreciation may seem trivial, but we feel confident that such expressions will by no means be despised. A little recognition of service rendered is as a rule not unwelcome.

AN EXPERIMENT IN EDUCATION.

The plan of the General Education Board to begin "an experiment in the education of the youth of this country," the experiment to take the form of a model school at Teachers' College, in which the course of studies will be "better adapted to the needs of common life than is the curriculum now in common use," will be of unusual interest to the faculty and students of Columbia. Not only will the school be conducted under our very eyes, but it will also be partly supervised by prominent members of the Teachers' College faculty.

The new school will be, of course, a frank experiment, but an experiment that will be supported by such sound educators as Dr. Abraham Flexner and Charles W. Eliot, President Emeritus of Harvard. Dean Russell, of Teachers' College, will also be active in the affairs of the school.

When Columbia last spring removed the Latin requirement for the Bachelor of Arts degree, the step was looked at askance by many persons prominent in educational circles. But now there comes along a school that will abolish both Latin and Greek entirely, drop the formal study of grammar, lay stress on the modern languages, introduce new methods of teaching literature and history, and bring science, industry and the domestic arts into the greatest prominence of all! Small wonder that the conservative Times calls it "radical" and, from force of habit, adds "and dangerous."

The experiment, if successful, will affect the colleges and universities as much as the secondary schools, for the higher institutions practically will be forced to follow the lead of the preparatory and elementary schools. It will be a revolution in education in this country, but it will be a revolution that many college men have been wishing for and expecting for many years.

Nearly every college man, and practically every Senior, at one time or another experiences the feeling that his education has not been of the value that it might have been. When he looks back over the dozen or more years of his education he often realizes that his preparatory education has had too much deadwood in it; that he has been taught things in which he has no interest and which will never be of value to him; that too much stress has been laid on some subjects and not enough on others. And because of this realization he desires as much freedom as possible in the selection of his college courses. It was this feeling among his students that led Dr. Eliot at Harvard to widen the application of the elective principle.

We shall leave for wiser minds the condemnation or approval of the educational principles behind the new school at Teachers' College. It will stand or fall on its own merits. The results are what count, and if the results mean the eradication of some of the faults in the present educational system, the experiment will have the support of every thinking college man.—The Columbia Spectator.

RELIGIOUS EDUCATION.

The Presbyterian Sunday School workers of the city and suburbs held a "grand rally" in the David Morrice Hall, Presbyterian College, on Friday evening. The chair was occupied by Rev. A. S. Reid, B.A., B.D., and addresses were given by Rev. W. O. Rothney, B.A., of Macdonald College, who is conducting the classes of Religious Training of Normal School

Teachers since the University has taken over this duty, and by Rev. A. J. William Myers, Ph.D., who has been giving a course of lectures on Sunday School Pedagogy to the students of the Co-operating Theological Colleges. The male quartette of the First Presbyterian Church was in charge of the musical programme. Principal Fraser, Professor Bieler and Professor A. R. Gordon took part in the proceedings.

FOUR GRADUATES FIGURE IN RECENT CASUALTY LISTS; LT-COL. MAURICE ALEXANDER REWARDED WITH C. M. G.

Lieut. D. L. Macaulay and 2nd Lieut. Yves Lamontagne Are Wounded—Lieut. D. Stuart Forbes Married in London—Lieut. Lee Strathy Invested With Military Cross—Late Dr. L. P. Bender, Med. '65, Was a Veteran of the Civil War—Pte. R. M. Ferguson, Arts '12, Now Reported Missing.

RECENT CASUALTIES.

Gorrell, Colonel C. W. F., Med. '94, C.A.M.C., died on active service. Ferguson, Pte. R. M., Arts '12, P.C.L.I., previously reported wounded, now wounded and missing. Macaulay, Lieut. D. L., Sci. '15, Royal Flying Corps, wounded. Lamontagne, 2nd Lieut. Y., Sci. '15, Royal Engineers, wounded.

RECENT DECORATIONS.

Alexander, Lt.-Col. Maurice, Law, '10, Canadian Headquarters, created C.M.G.

Colonel C. W. F. Gorrell.

A London despatch says that Col. C. W. F. Gorrell, Med. '94, was found dead in his lodgings at Malda Vale, London, from the effects of poison. Colonel Gorrell was formerly in command of the Duchess of Connaught's Canadian Red Cross Hospital at Taplow. Since his retirement from this important office in the Canadian Medical Services overseas, Colonel Gorrell has been living in London, where he has been ill. The administration of the Taplow Hospital was investigated recently.

Colonel Gorrell hailed from Brockville, Ont., where his father, the late George Taylor Gorrell, was in the postal service. He was born at Farman's Point, Ont., in 1871, and received his education at the Brockville public and high schools, and at McGill, from which he was graduated in 1894. From 1896 to 1899 he was employed as private secretary to the late Hon. C. F. Fraser, Q.C., Minister of Public Works at Toronto, and after graduation became first assistant on the staff of the Montreal General Hospital. After serving as medical superintendent of the Garrett Hospital in Baltimore, Colonel Gorrell went to Ottawa, where he entered practice and joined the staff of St. Luke's Hospital.

Since youth Colonel Gorrell has been connected with things military, joining the 41st Brockville Rifles as a private as early as 1888. Later he was gazetted as lieutenant in the 42nd Lanark and Renfrew Infantry Regiment, and still later joined the Canadian Army Medical Corps. With the rank of Lieutenant-Colonel he went overseas with the First Canadian Division, and when he was placed in command of the Taplow Hospital in the Astor residence at Taplow, was raised to the rank of colonel.

Colonel Gorrell's name had been connected with the maladministration of affairs at Taplow, but he had been exonerated from all blame in the conduct of the institution.

2nd Lieut. Y. Lamontagne.

Second Lieutenant Yves Lamontagne, Sci. '15, serving in France with the Royal Engineers, has been wounded, so official advices to Charles O. Lamontagne, father of the young soldier, state. The official notice received by Mr. Lamontagne from the War Office was as follows: "Regret to inform you Second Lieut. Y. Lamontagne, Royal Engineers, 74th Field Company, reported wounded January 12. Further details to follow."

Second Lieutenant Lamontagne was one of the best known men about the University during his college course, owing to his reputation as a 'cello player. He was born in Montreal in 1894, and attended the Commercial High School before entering McGill with the class of '15. In 1908 he won the McGill Conservatory Scholarship in 'cello, and thereafter was connected with various amateur musical organizations in the city, chief among these being the McGill Students' Orchestra. Second Lieut. Lamontagne was a member of the editorial staff of McGill Daily, acting as musical critic.

A member of the McGill Contingent, C.O.T.C., Second Lieut. Lamontagne joined the Canadian Overseas Railway Construction Corps commanded by Lt.-Col. Ramsay, when it was formed here in the spring of 1915. In the following July he went overseas and quickly reached France, where he acted as interpreter for Lt.-Col. Ramsay. Another McGill man and a classmate of Second Lieut. Lamontagne, Sgt. (now Second Lieut.) L. F. Fyles, was chauffeur for Lt.-Col. Ramsay. When the Canadian Overseas Railway Construction Corps was returned to England on the completion of work behind the lines in France, Second Lieut. Lamontagne secured a commission in the Royal Engineers. After a course of training in England, he again went to France, and there became attached to the 74th Field Company, R. E. For the last nine months Second Lieut. Lamontagne has been on the Somme front.

Lieut. D. L. Macaulay.

Official notification has been received by relatives in the city of the wounding in action of Lieut. Douglas Lawson Macaulay, a graduate of Science of the class of '15. Lieut. Macaulay is serving with the Royal Flying Corps, and was evidently wounded in the course of an aerial encounter on the Western front. No details were given of Lieut. Macaulay's injuries, with the exception that they are slight.

Lieut. Macaulay attended the Westmount Academy and St. Andrew's College, Toronto, before he entered McGill. Here he took the course in Electrical Engineering, and was graduated in 1915. He won the 15 lbs. McGill boxing championship in 1911. Lieut. Macaulay was born in Montreal in 1891, and his home was in Hudson Heights, Que.

A recent casualty list issued at Ottawa announces that Pte. R. M. Ferguson, Arts '12, of the Princess Patricia's Canadian Light Infantry, previously reported wounded, is now reported wounded and missing. Pte. Ferguson, who went overseas with the

Fourth Universities Company, has been on the list of missing since the attack on Courcellette in September.

In the New Year's Honours List issued at London, the name of Lt.-Col. Maurice Alexander, Law '10, appears as in receipt of commandship in the Order of St. Michael and St. George for his services as judge advocate general of the Canadian forces in England. Lt.-Col. Alexander, who was a member of the legal firm of Davidson, Wainwright, and Alexander, Montreal, before he went overseas, is a graduate of the University of Good Hope in Arts. He was originally paymaster of the Second Canadian Division, and was promoted to become judge advocate general of the Canadian forces. He received his captaincy in the 1st Grenadier Guards of Canada in 1914.

Appreciative Reply.

Perhaps the most appreciative reply which has yet been received by the Students' Society of the University in acknowledgment of its Christmas cards sent overseas, comes from Captain Stuart S. Hawkins, Sci. '11, of the 78th Overseas Canadian Battalion, now stationed at Bramshott, Hants. Capt. Hawkins writes:

"In acknowledging the Christmas card which arrived a few days ago, I want to let you know how glad it makes a chap feel when the old Alma Mater remembers him. Those little cards with the martlets and the red and white greeting will bring cheer to many a homesick chap. It has the same effect as the old yells has at a match, whether we're winning or losing. It means that those at home are doing their bit. It puts about ten more pounds of concentrated ginger into our 'punch'."

"Although I have not been across yet, your little card has given me additional hope that the marching orders will be out soon. With best wishes for you all and success to the old Red and White. Yours truly the bust-up, Stuart S. Hawkins, Capt."

Lieut. Harold A. Baylis, Sci. '09, with the 2nd Canadian Divisional Train in France, writes: "It gives me great pleasure to acknowledge your card of Christmas greetings, and to think that the old boys still have a home and are thought of at Old McGill. At many times and odd places I run across men whom I know there either personally or by reputation on the Campus or in the classroom. In closing I only wish you all and the College the best of everything this year."

Capt. H. B. Stuart, Sci. '92, 2nd Canadian Pioneer, France, also sent Christmas greetings.

Pte. W. W. Beveridge, Arts '15, Med. '18, who has been with No. 3 Canadian General Hospital (McGill), since its inception, has been promoted to a commission in the Imperial forces, and is now undergoing training in England before proceeding to the front. The death of his father, James Beveridge, took place in Vancouver, B.C., a few days ago. Lieut. Beveridge was sporting editor of McGill Daily before he enlisted. At the McGill General Hospital he was one of the founders of the unit newspaper "The McGilliken."

On Board of Enquiry.

Lieut.-Col. R. de Lotbiniere Harwood, Med. '95, was organized and took overseas the 51st Battalion, of Edmonton, has been appointed president of the board of enquiry into the administration of the Duchess of Connaught's Canadian Red Cross Hospital at Taplow.

Lieut.-Col. E. G. Mason, Med. '02, who was officer in command of the 50th Overseas Battalion, and who was sent to England in November on sick leave, after being in the trenches since September, is now recuperating at Liphook. He was operated upon at Southsea, and it is understood, will now take out a commission in the Canadian Army Medical Corps. Lt.-Col. Mason's home is in Calgary.

From relations in the city it is learned that Pte. L. H. Nichols, Arts '16, is at present in England training for a commission with the Canadian Artillery. Lt. H. Nichols joined No. 9 Field Ambulance in the spring of last year, and was only in England a very few weeks when this unit was taken to France. No. 9 Field Ambulance was called into action at a very heavy period of the fighting, with the result that Lt. H. Nichols saw much severe fighting. Previous to enlisting he served with the McGill Y. M. C. A., acting in the capacity of associate secretary for two years.

Lieut. D. Stuart Forbes, M.C., Sci. '15, former well known McGill football player and the winner of the Military Cross for his good work with machine guns on the Ypres front in June last, was married on December 31 at St. Paul's Presbyterian Church, Paddington, London, to Miss Marian McDonald, daughter of Mrs. John McDonald, 293 Peel Street, Montreal. Lieut. Forbes went across with the First Universities Company, and won his commission in the field. The invention by him of a new sight for machine guns has won marked praise from the War Office.

Lieut. V. Eric C. Irwin, Sci. '11, one of the original officers of the First Universities Company, who was seriously wounded last summer, has now recovered sufficiently from his wounds to be invalided home. He was in Montreal last week, and is able to walk with the aid of a steel attachment.

Captain Robert H. Sutherland, Med. '07, is now stationed at Salonika. He has seen a good deal of the various shores of war since he left these shores with the First Contingent in the fall of 1914. After a short stay at Salisbury Plains he was transferred to Cliveden Hospital. He was there but a few months when he was moved to France. But he was not destined to stay here for long either. His next appointment was to hospital work on the island of Lemnos in the Aegean Sea. For five or six months he did good work here, and was then ordered to Alexandria to

await orders for his transfer to No. 1 Canadian Stationary Hospital at Salonika, where, as already stated, he now is.

Invested With Cross.

Lieut. Lee Strathy, of the Canadian Field Artillery, has been invested at Buckingham Palace with the Military Cross, so press advices from London state.

A London despatch says that Lieut. S. C. Montgomery, shot in the left wrist, is at a casualty station in France. This is taken as referring to Lieut. S. C. Montgomery, Sci. '15, who was president of the Science Undergraduates' Society before he enlisted as a gunner in the 21st Battery. He won his commission in the field.

Major F. A. Wilkin, Sci. '95, of the Canadian Machine Guns, has just been promoted to the rank of lieutenant-colonel while commanding a Machine Gun Brigade of the Canadian Corps in France.

Lieut. Clifford Scott, Med. '14, of the Royal Army Medical Corps, who has been awarded the Military Cross, is expected home in Ottawa shortly from England.

Capt. R. H. Green (Arts '12), has made quite a name for himself in his department and is known to be about the best paymaster in the division. I hope he will be recognized as an officer," says a letter from an officer at the front.

Stanley H. Cunningham, Arts '12, Sci. '14, has enlisted as a gunner in the 79th Battery, Canadian Field Artillery, now recruiting in Montreal.

Capt. H. C. Vert, Med. '15, of the Royal Army Medical Corps, is now serving in a hospital in England, but expects shortly to go to France for the second time, his place in England being taken by an American civilian doctor. Capt. Vert originally enlisted with No. 3 Canadian General Hospital (McGill), and on arrival in England secured a commission in the Royal Army Medical Corps. After serving for a year in France, he became ill, and was invalided to England, where since recuperation he has been engaged in hospital work.

Capt. George Cuzner, Med. '00, has enlisted in British Columbia with the Canadian Army Medical Corps, and expects to go overseas in command of the next draft from Camp Willows. The last draft, which went overseas only a few days ago, was in command of Capt. Osborne Morris, Med. '90, who was practising at Vernon, B.C., previous to enlistment.

Lieut. Roderick Stewart Kennedy, Agr. '12, of the West Yorkshire Regiment, is spending a fortnight's leave in Ottawa, his father, Mr. H. A. Kennedy, being connected with the Military Hospitals' Commission. Lieut. Kennedy is a native of Montreal, and a graduate of McGill. He spent four years at Macdonald College, and played on the University football team. But for the loss of an eye, he has almost completely recovered from his many wounds.

Dr. L. P. Bender.

A Quebec despatch says that Dr. Louis Prosper Bender passed away on Thursday morning at 78 St. Louis St., after an illness of only two weeks. Born July 30, 1844, a son of the late L. P. Bender, advocate, of this city, deceased was in his 73rd year. He was a widower for a number of years, but is survived by one daughter, Miss Eva Bender, of this city, and one son, Ludwig, who resides in the United States; also by three brothers, Messrs. Eugene N. Bender, general purchasing agent of the C. P. R., Montreal; Alfred Bender, of Montreal, and Ernest Bender, of St. Lambert, near Montreal.

The late Dr. Bender was educated at the Quebec Seminary, and at McGill, where he graduated M.D. in 1865. Later he was admitted to the College of Physicians and Surgeons of Ontario. In 1868 he married Miss A. E. Scott, daughter of the late A. S. Scott, of this city. He went to the United States, and served on the staff of the Northern Army during a portion of the Civil War, and in this connection came under the personal notice of General Grant. Returning to Quebec, he practised his profession according to the principles of homeopathy. He had a strong literary bent and considerable ability. He was a frequent contributor to various periodicals, and wrote a series of biographical sketches of prominent men of Quebec, which attracted much attention and evoked favorable criticism. He published in 1881 "Literary Sketches," and in 1882 "Old and New Canada." He was a member of a literary circle known as the Pleiade de St. Maurice, among whose membership were such notable kindred spirits as Joseph Marmette, Oscar Dunn and A. Achenote.

In 1884 Dr. Bender moved to Boston, where he remained for twenty-four years, returning to Quebec in 1908, where he has since resided.

GRADS IN CIVIL LIFE.

G. D. MacKinnon, Sci. '97, who has, during the past seven or eight years, been Vice-President and General Manager of MacKinnon, Holmes and Co., Limited, of Sherbrooke, Que., has, with J. W. Bowman, of Boston, recently acquired the controlling interest of MacKinnon, Holmes and Co., Limited, they having purchased the holdings of Mr. A. R. Holmes, C.E., who since the organization of the company has been Director and Secretary-Treasurer. The deal is understood to have involved upwards of \$150,000.

N. T. Binks, Sci. '16, is now with the Dominion Bridge Company at its works in Lachine. Binks has been connected with a power plant at Shawinigan until recently.

A. E. Cameron, M.Sc. Sci. '13, who was lecturer in Mining Engineering at the University of Alberta, went to Ottawa recently to take a position with the Munitions Board. Mr. Cameron took an active interest in C.O. T. C. work at Alberta.

THE NEW HEAD OFFICE BUILDING OF THE SUN LIFE ASSURANCE COMPANY OF CANADA
DOMINION SQUARE, MONTREAL.

Incorporated in 1865, the Sun Life Assurance Company of Canada issued its first policy in 1871. In the intervening forty-five years of its active life history, it has established a record among Canadian life companies for both rapidity and solidity of growth. To-day in the wealth of its resources, in the magnitude of its operations and in the volume of its business, the Sun Life of Canada occupies a proud and commanding position as the premier life company of the Dominion of Canada.

PHYSICS—B.Sc. Course.

CLASS I.—Freedman; McCall. CLASS II.—Roy; Peterson; Rubin. CLASS III.—Hershon; Birks; Rabinovitch; Hamilton; McGlaughlin; Ercux and Shaw, equal.

SUPPER AT THE HALL.

A small supper is being held at Strathcona Hall at 6.15 this evening, for a number of men to meet with Mr. J. Lovell Murray, of New York, and discuss with him a Mission Study Programme for the remainder of the year in McGill.

MED. FRESHMEN BANQUET SOPHOS. IN ROYAL WAY.

(Continued from Page 1.)

J. A. McDougall, president Med. '20, in reply, dealt at length upon the misunderstanding which existed at the beginning of the year between the two classes, and particularly the stand which he and a number of the other Sophomores had taken.

The McGill Daily toast was proposed by S. J. Usher, who pointed out the place that the only College daily newspaper in Canada had taken in the life of the undergraduates of McGill.

T. J. Kelly, in reply, thanked the speaker for the kind things which he had said in regard to the paper, and made an appeal for services, either direct or indirect, from the students. The staff was small and the field of news to be covered was large, but with a little help from this one and that one in the way of sending items of news, it would be easy work to edit the paper.

A. L. Walsh, in introducing the subject of athletics, spoke of the term, physical fitness, which is so much to the fore these days, and declared that one of the best ways of being in this happy state was to participate in athletics.

H. H. Pitts, in reply, brought his hearers back to the days of ancient Greece and Rome, speaking of the great stress which these peoples placed on athletics, and how cultured and intellectual they were correspondingly.

Mr. Oberg, president of the Dental Society, made a few remarks in the interests of that branch of the Medical Faculty.

W. A. Martin proposed the toast to the ladies, and dealt with the subject in a fitting manner.

S. A. Holling, who replied, although he declared that he was unfit for the task, and not conversant enough with the fairer sex to do them justice, succeeded in leaving grave doubts in the minds of his hearers as to the correctness of that statement.

An entertaining programme filled in between the different speakers, and it would be unfair as well as almost impossible to make any particular mention, as all were exceptionally good. The menu and toast list follows:

"I charge thee, invite them all, let in the tide Of knives once more, my cook and I'll provide."

Simon of Athens. Celery. Olives. "Can you eat roots."

Soup. "He must have a long spoon." Tomato. Broth in Cup.

Fish. "In hell they'll roast thee like a heron."

Burns. Fried Fillet of Sole. Tartar Sauce. "Here's a fowl without a feather."

Roast. Roast Stuffed Chicken. Brown Gravy. Vegetables.

"Quick, let me strip thee of thy tuffty coat."—Thompson. Rissolée Potatoes.

Salad. "We should cultivate a taste for green stuff."

Salade Louise. Dessert. "Then farewell heat, and welcome frost."—Merchant of Venice.

Neapolitan Ice Cream. Demi Tasse. "Discontinue the sweeter banquet of the mind."—Pope.

TOASTS.

KING AND COUNTRY.

SENIOR TEAM LOSE A WELL PLAYED GAME

Result of Game in Doubt Until Last Minute.

JUNIORS SUCCESSFUL.

Macdonald Did Not Have a Look-in With Fast Aggregation in Second Game.

McGill's first basketball team received a great surprise on their trip to Macdonald on Saturday, when the farmers held them to the small end of a twenty to eighteen score. It was the first game the team has played, and they hardly expected to lose with last year's championship team practically intact. There were several unusual elements attending the game. The first was the absolute failure of the McGill forwards to find the basket when an easy shot was given them. On the other hand, practically every score made by them was of the more or less sensational variety. The game was lost, though, through the inability of the McGill boys to make the fouls count, while Tilden, of Macdonald, tallied eight points in this department. The large proportion of the fouls called were in favor of McGill at that.

Perhaps a team could not be collected that was better adapted to taking advantage of the particular weaknesses of the McGill team. Kingsman, with his weight, proved a most formidable barrier under the McGill goal, and was not at all averse to using rough tactics when he got excited. He had no less than three major fouls called on him. Outside of his work there were no rough spots in the play. Even his roughness was probably due more to his weight than to any intention on his part. Tilden had all the advantages which a small man of even mediocre ability possesses over his larger opponents. His work at shooting fouls, as said before, emphasized McGill's weakness in that respect. Arnold's great reach made him valuable as a retriever, but his shooting ability was practically nil. Woodward's and Roy's knowledge of the floor stood them in good stead.

For McGill, every man worked to the best of his ability, though at times they showed up pretty badly. The actual play outside of fouls shooting was undoubtedly superior to that of Macdonald, making more points on field goals. The work of Fox and Ferguson in defence was of a high order. Fox's special value seemed to lie in his ability to land in just the right place at exactly the right moment to break up a promising play. Pitts seemed to be a good deal off his usual form, but held Arnold well in check. Hertz was a victim of hard luck, repeatedly shooting what appeared to be a perfect basket, only to have it drop over the wrong side of the ring. Throughout the first part of the game, the light was very bad, the sun shining brightly in through the windows to the west and casting very deceptive shadows over the floor.

For the first five minutes of the game, the play was fairly even, Pitts and Tilden both tallied fouls. On two clever passes from Tilden, Woodward shot two field goals, 5 to 1 for Macdonald. Tilden scored another foul. Hertz made McGill's first field goal by a great one hand shot which seemed impossible. McGill had lots of chances at this stage, but could not find the basket. Roy shot a field goal. The score was 8 to 3 for Macdonald. At this period, McGill began to improve. Pitts scored a foul. Hertz got a goal from well out on the floor. Hertz's work at this period was the best of any man on the floor. Besides doing all the scoring, his defensive work was everywhere in evidence. He was troubled somewhat by the slippery floor, often losing his feet. Pitts scored a foul. Score 8 to 7. Tilden shot another foul. Upham made a pretty shot, evening up the score. Tilden scored two more fouls. Half time showed Macdonald ahead by the score of 11 to 9. Hertz opened the second half with a pretty overhead shot that again evened the score. The McGill team worked well at this period, and it looked as if they would come out ahead. A spurt by Macdonald netted two goals, scored by Roy and Woodward. Macdonald were ahead by 15 to 11. Pitts scored a foul. Ferguson came the full length of the floor to score off a nice pass. Upham scored again. Upham was working hard at this stage, but the work of the Macdonald forwards prevented any further trouble. McGill led by one point for the first time in the game. Tilden evened up by scoring a foul. Roy scored again. Pitts scored another foul. Tilden scored two foul shots. Pitts scored a foul shot. From then on the game was very even, no scoring being done on either side. The final score was 29 to 18 for Macdonald.

In the intermediate game, McGill won easily by the score of 33 to 17. The result was never in doubt after the first few minutes of play. McGill assumed the lead promptly, and were without doubt vastly superior to the Macdonald men. The features of this game were the splendid shooting of Bourke, the McGill centre, the team work of MacPhail, and the work of Peterson at defence for Macdonald. Rivard, who came in for Macdonald in the last half, played a good game. Bourke scored 19 points for McGill, more than the entire Macdonald team got away with. In the first half, McGill held the Macdonald men down well, but let up in the second half, when several changes were made in the line-up.

Bourke opened the scoring in the first half by scoring three in quick succession. Spicer scored for Macdonald. Score, 6 to 2. Bourke scored again. Rivard shot a foul. Bourke shot two fouls in fairly short order. O MacPhail got a pretty shot. The McGill team were playing a whirlwind game, the play seeming faster than that of the first game, but not as efficient in team work. Mac-

The Royal Military College of Canada

THERE are few national institutions of more value and interest to the country than the Royal Military College of Canada. It is a unique institution, its object and the work it is accomplishing are not sufficiently understood by the general public.

The College is a Government institution, designed primarily for the purpose of giving instruction in all branches of military science to Cadets and Officers of the Canadian Militia. In fact, it corresponds to Woolwich and Sandhurst.

The Commandant and military instructors are all officers on the active list of the Imperial army, lent for the purpose, and there is in addition a complete staff of professors for the civil subjects which form such an important part of the College course. Medical attendance is also provided.

While the College is organized on a strictly military basis the cadets receive a practical and scientific training in subjects essential to a sound modern education.

The course includes a thorough grounding in Mathematics, Civil Engineering, Surveying, Physics, Chemistry, French and English.

The strict discipline maintained at the College is one of the most valuable features of the course, and in addition, the constant practice of gymnastics, drills and outdoor exercises of all kinds, ensures health and excellent physical condition.

Commensurate in all branches of the Imperial service and Canadian Permanent Force are offered annually.

The diploma of graduation is considered by the authorities conducting the examination for Dominion Land Surveyor to be equivalent to a university degree, and by the Regulations of the Law Society of Ontario, it entitles the same exemptions as a B.A. degree.

The length of the course is three years in three terms of six months each.

The total cost of the course, including board, uniform, instructional material, and all extras is about \$400.

The annual competitive examination for admission to the college takes place in May of each year at the headquarters of the several military districts.

For full particulars regarding this examination and for any other information, application should be made to the secretary of the Militia Council, Royal Military College, Kingston, Ont.

SEPARATE SEALED TENDERS addressed to the undersigned, will be received at this office until 5.00 P.M., on Monday, February 12, 1917, for the supply of "Stumps and Brush", "Chains", "Coils", "Hardware", "Hoses", "Oils and Greases", "Paints", "Palms and Paints", "Wire", "Moulding", "Wire Rope", and "Steam Pipe, Valves and Fittings", for the requirements of the Departmental dredging plant in Ontario and Quebec during the fiscal year 1917-18.

Each tender must be sent in a separate envelope and endorsed: "Tender for Hardware, Ontario and Quebec", "Tender for Chains, Ontario and Quebec", etc., etc., as the case may be.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures. These forms can be obtained at the Department of Public Works, Ottawa.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, for amount stated in form of tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the contract. If the tender is not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

R. C. DESROCHERS, Secretary, Department of Public Works, Ottawa, January 17, 1917.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

SENIOR TEAM LOSE A WELL PLAYED GAME

(continued from page 3.)

Carthy scored. Bourke shot a foul. Bourke shot another basket. The score at half-time was 19 to 3 for McGill. Peterson's good work in defence was the only thing that prevented an even larger score. Bellisle scored. MacPhail scored. Bellisle again fooled his man and scored. Rivard scored. The score was 21 to 9. Rivard was playing a fine game at this period, doing most of the effective work on his team. He shot two foul goals in short order.

MacPhail scored again. Rivard scored, and got a foul goal. Score 23 to 14. McGregor scored two in rapid succession. He had just come on for the first time in the second game, and found the basket with no difficulty. Rivard scored a foul.

Bourke scored his first basket of the half. Fitzgerald scored. Jones scored for Macdonald. MacGregor scored. Bourke scored. The game ended 33 to 17 for McGill.

The summaries:

First Game.

McGill. Macdonald. Forward .. Woodward. Upman Tilden. Pitts Centre Arnold. Ferguson .. Guards .. Kingsman. Fox Roy. Goals from fouls: Pitts 6, Tilden 8. Field goals: Hearty 3; Upman 2; Ferguson, 1; Woodward, 3; Roy, 2. Major fouls: Kingsman, 3.

Junior Game.

McGill. Macdonald. Forward .. Spicer. MacCarthy Rivard. Bourke .. Centre .. Jones. Fitzgerald .. Guard .. Doherty. Vaughan Peterson. McGregor .. Spares .. Bellisle. Bustin.

FOUR GRADUATES FIGURE IN RECENT CASUALTY LIST.

(Continued from Page 2.)

Robert C. McCully, Sci. '16, was a recent visitor at the University. Since graduation last spring McCully has been engaged on Government survey work in Saskatchewan. This work is now finished, and he has accepted a position with the Montreal Foundation Company, which is erecting a nickel refining plant at Port Colborne, Ontario.

J. G. O'Donnell, Sci. '16, is at present stationed at Thorold, Ontario. After graduation he was appointed an inspector of the Imperial Munitions Board, and at the Thorold plant is in charge of the physical tests of steel.

Rev. Herbert I. Johnson, Arts '10, was raised to the priesthood of the Episcopal Church by the Rt. Rev. Bishop Lawrence, of Massachusetts, last Sunday. Mr. Johnson is now curate of St. Stephen's Church, Lynn, Mass., and has studied at the Episcopal Theological College, and Harvard University, since leaving McGill. He is at present doing post-graduate work at Cambridge.

HOCKEY GAMES PROMISE MORE NEW SURPRISES.

UNIFORM TUITION.

With the University year of 1917-1918, the tuition in all the colleges of Cornell University will be \$150. This means an increase of \$25 for students in the Colleges of Arts and Sciences, Law and Agriculture and affects about 2,500 students. The increase has become imperative to help defray the overhead expenses of the University. At present each student costs the university \$410 each year of instruction.

SPARKLETS FROM THE MED. BANQUET.

"Examinations, we know, are not the best test of a man, but we know of no better at present."

"You must find pleasure in your profession to be a success."

—Acting Dean Blackader.

"King George is not a big man physically, but he is a big gentleman."

Captain Simpson.

"I see before me a big, handsome and intelligent audience, and therefore I say that there is nothing the matter with Old McGill."

—Dr. Martin.

"Go! IT (the banquet) will be the bulkiest function of the year."

—Professor Scane (through Dr. Martin).

"McGill University should, above all things, leave its mark upon its students."

—Professor Lloyd.

"If Freshmen's cerebral cells work as well as the cells of their stomachs, they will make their marks in life."

—Dr. Freedman.

"No man is down and out until he loses faith in himself."

"This dinner is developing into a surprise party."

—Dr. Jackson.

"McGill is the essence of the spirit, the character, and the deeds of her sons."

—P. Heinbecker.

"May they (the Faculty) deal gently."

With Medicine '20.

And not forget '21.

—A. B. Hawthorne.

"The greatest regret of Med. '20, Med. '21 and the Faculty is that there are no ladies here to-night."

—W. A. Martin.

"According to recent excavations in the region of Babylon, it has been found that woman was made from a vermin of a man, and not from his rib; that is the reason why he has had no backbone ever since."

—S. A. Holling.

McGILL MEN WERE WELL ENTERTAINED

Macdonald Girls Treat Basketball Men to a Fine Skating Party.

Some thirty-five or forty basketball fans went out to Macdonald on Saturday to cheer the two McGill teams on. There is no doubt that the other sports at that popular institution were also a cause for a large part of the enthusiasm for the trip. Macdonald has long been noted for her famous rink, and the famous "like mother used to make" team, and in the last two years, since the inception of the survey camp for the Science men there, an ever increasing number of the leading social lights find every possible excuse to journey there. They were treated to two very good basketball games, the first of which was one of those nip and tuck affairs which one seldom has a chance to see. While the first team lost, the boys did everything in their power to try and cheer them on to victory. They assembled at one end of the gym, and shouted forth the McGill yell to great advantage.

These, and the basketball men who stayed out, were unusually fortunate in having the ice and the ladies to themselves, for the evening. The Macdonald boys, being inured to the great attractions of the short course students and the "teachers," had arranged a snow shoe tramp which was to be strictly "stag," and hence the girls were left to their own resources and those of the McGill men. About twenty-five stayed out for the evening and enjoyed themselves immensely.

PHIL. SOCIETY MEETS TO-NIGHT.

The Philosophical Society will hold its next meeting this evening in Strathcona Hall. R. J. Clarke will read a paper on "Cantor's Doctrine of Infinity." A very interesting and instructive meeting is assured, and all students interested in the evening's discussion are cordially invited to attend.

ARTS '17 ENLISTMENTS.

Roberts, L. M., Lieut., entered McGill from Montreal High. Along with A. W. Heron, he was the first man to enlist from Arts '17. After spending over a year in France with No. 6 Field Ambulance, he received his commission in the 24th Battalion. At present he is in Montreal on sick leave.

Sutherland, J. E., Lieut. (killed in action), enlisted with the First Universities Company. Last spring he received his commission in the "Pats," and the first night in the trenches after receiving his commission, Lieut. Sutherland was killed, being shot through the neck.

Sutherland, William, Lieut., enlisted for overseas service with Lord Strathcona's Horse.

Wait, E. H., Gunner, is at present in England, having enlisted with the McGill Battery.

Waller, J. C., is serving overseas.

CONVERSAT AT WESLEYAN WAS GREAT SUCCESS

About One Hundred and Twenty Were Present.

VERY GOOD PROGRAMME.

Theolog. Talent Was Displayed in All Branches of Entertainment.

The Wesleyan Theolog. again proved their splendid hospitality Friday night, when a largely attended conversat. was held in the large hall of that institution. Some one hundred and twenty young men and their lady friends gathered at the Wesleyan College at eight o'clock, and the fun commenced immediately, and there was no cessation of it throughout the whole evening. The fact that so many non-theological students were attracted by the programme speaks well for the sort of entertainment provided. In addition to this there was the Skating Party, which undoubtedly detracted somewhat from the number who would have wished to go ordinarily. At that, the maximum number that were to be accommodated from the first was easily obtained.

Dr. Gifford, the Acting Principal of the College in the absence of Mayor Smyth, who is serving as a chaplain with the 199th Irish-Canadian Rangers, started the guests on their course of merry-making by welcoming them heartily in a short talk, which was greatly appreciated by all. The first part of the evening was largely musical, though Professor Holt, the Professor in Eloquence for the Affiliated Theological Colleges, gave a reading with wonderful effect. Miss Adair gave an exceedingly well rendered piano solo immediately after the words of welcome by Dr. Gifford. Not only was the piece rendered with feeling, but the technique was amazingly good. She was heartily applauded.

Professor Holt's reading was received as one of the most finished numbers on the programme in every way. Many were the expressions of delight heard on every hand after he had finished. His ability is undoubtedly, and few indeed were there who did not wish that he might continue indefinitely. Messrs. Hustler and Cosens, both students of the college, rendered solos, and were loudly applauded, especially by their classmates. Mr. Adams' violin solo was a fitting interlude between the solos of Messrs. Hustler and Cosens.

Games were indulged in after the musical programme, for the entertainment committee were well picked, and realized that a programme composed entirely of music was not sufficient to absorb the interest of a body of young men and ladies for the whole evening.

Splendid refreshments were served after the games. The feature of these were the delicate sandwiches and superb cake served in abundant quantities. Naturally, with the coming of refreshments, toasts were in order. Six toasts were called, and all were responded to most heartily. The toast to the King was responded to by singing the National Anthem. R. W. Armstrong responded to the toast "The Empire." His response took on a serious strain, and was inspiring. It will be remembered that he had a brother killed in trying to protect a wounded officer. A more fitting man for the response could not have been chosen.

R. C. Gardner made the toast to "College and Our Volunteers." He recalled the large number of Wesleyan men who had heeded the call to arms and had gone to maintain justice to the end. Several men from his college have been wounded, and even paid the extreme price for the sake of liberty. He expressed the hope that the College would still further contribute her share, and more, to the furtherance of the cause. J. C. Mathews handled that delicate toast, "The Faculty," very ably. Of course, no Wesleyan function could be complete without a toast to the "Ladies," by H. E. Livingstone. It is given to very few men to understand their subject as thoroughly as he seems to have mastered his. The toasting was finished by a parody on "Tipperary," in which the Theologs. had evidently practiced not a little, as they delivered it with no little skill.

Miss Thom, the soprano soloist for the St. James Methodist Church, was one of the best, and everyone enjoyed her singing to the utmost. Mr. Adams again favored with a violin solo, which was very good. Hustler sang another song.

Another spell of games was indulged in, and after the party had sung "Old Lang Syne," the guests departed, after voting it one of the most enjoyable evenings yet.

at 25c. a tin and you'll wonder why you ever paid more, or bought any other than "Royal Rose". Ask your druggist for it.

NATIONAL DRUG & CHEMICAL CO. OF CANADA, LIMITED
255

PROVINCE OF QUEBEC

DEPARTMENT OF COLONIZATION, MINES AND FISHERIES.

The chief minerals of the Province of Quebec are Asbestos, Chromite, Copper, Iron, Gold, Molybdenite, Phosphate, Mica, Graphite, Ornamental and Building Stone, Clays, Etc.

The Mining Law gives absolute security of Title and is very favourable to the Prospector.

MINERS' CERTIFICATES.

First of all, obtain a miner's certificate, from the Department in Quebec, or from the nearest agent. The price of this certificate is \$10.00, and it is valid until the first of January following. This certificate gives the right to prospect on public lands and on private lands, on which the mineral rights belong to the Crown.

The holder of this certificate may stake mining claims to the extent of 200 acres.

WORKING CONDITIONS.

During the first six months following the staking of the claim, work on it must be performed to the extent of at least twenty-five days of eight hours.

SIX MONTHS AFTER STAKING.

At the expiration of six months from the date of the staking, the prospector, to retain his rights, must take out a mining license.

MINING LICENSE.

The mining license may cover 40 to 200 acres in unsurveyed territory. The price of this license is Fifty Cents an acre per year, and a fee of \$10.00 on issue. It is valid for one year, and is renewable on the same terms, on producing an affidavit that during the year work has been performed to the extent of at least twenty-five days' labor on each forty acres.

MINING CONCESSION.

Notwithstanding the above, a mining concession may be acquired at any time at the rate of \$5.00 an acre for SUPERIOR METALS, and \$3.00 an acre for INFERIOR METALS.

The attention of prospectors is specially called to the territory in the North-Western part of the Province of Quebec, north of the height of land, where important mineralized belts are known to exist.

PROVINCIAL LABORATORY.

Special arrangements have been made with the POLYTECHNIC SCHOOL of LAVAL UNIVERSITY, 225 ST. DENIS STREET, MONTREAL, for the analysis of minerals at very reduced rates for the benefit of miners and prospectors in the Province of Quebec. The well equipped laboratories of this institution and its trained chemists ensure results of undoubted integrity and reliability.

The Bureau of Mines at Quebec will give all the information desired in connection with the mines and mineral resources of the Province, on application addressed to

HONORE MERCIER,
Minister of Colonization, Mines and Fisheries, Quebec.
